Profile

My career aspiration is to thrive in a professional environment within a dynamic and expanding organisation, where I can wholeheartedly contribute to both the technical growth of the company and my own professional development. I possess a strong ability to quickly adapt to new environments and embrace emerging technologies.

Professional Experience

Full Stack Developer, *Hakuna Matata pvt ltd*
2021/12 – present
Chennai, India
- I worked as a Developer at Hakuna Matata Pvt for the past 2.6 years.
- I actively contributed to numerous projects focused on issue resolution and optimisation, including code upgrades and enhancements.

Junior Developer, *Doodleblue*
2021/07 – 2021/11
Chennai, India
- I served as an intern at doodleblue Solutions for four months in the role of a front-end developer.
- I undertook comprehensive training in HTML, CSS, and JavaScript.
- Creating static and dynamic content web page for default web pages.
